INITIAL MEETING NOTES

(She is faculty secretary)

What's the problem:

• no vision - not her idea

• concerns - electronic platform (not in-person) use

- main issues related to Zoom

- there are many other "shareholders"

in this project - she doesn't know all of the problems

- Abby Tushingham is Zoom guru

• "hazy vision": reliable; anonymous way to vote, accessible to all faculty members, that can transition from Zoom format to in-person.

↳ Not everyone should be allowed to

NEEDS

vote, only faculty

• link can be posted

↳ some faculty don't have voting rights

↳ ANONYMITY, will be important for in-person

↳ Let the people who can vote do so, and keep in anonymous

↳ keep the question on the page!

↳ show results, display (graph??) save results

↳ confirm that vote is recorded

↳ need to be able to create the polls/questions on the fly

* Someone can say "remove" that comma" from the poll

↳ both web and app
